BERLIN, July 31—(INS)—In 1945,
most manufacturing industries in
the western zones of Germany were
at a standstill. By November, 1945,
industrial production in the Ameri-
can zone had reached 44 per cent
of 1936—a year of virtually full
employment in Germany. With
the exception of lumber, the produc-
tion of all commodities is below the 1936
figure, but by 1948 prewar output
is expected to be reached in a num-
ber of important industries.

In the British zone, industrial pro-
duction had recovered last fall to
only 38 per cent of 1936. The Brit-
ish zone includes heavy industries,
most of which are under severe re-
strictions as possible war industries,
while the American zone contains
mainly light industries, manufactur-
ing consumer goods.

Unfortunately, the exceptional se-
verity of the last winter has undone
some of the progress experienced
during the preceding year. Industri-
al production in the American zone
fell in December to 39 per cent, in
January to 31 per cent, and in Feb-
ruary to 29 per cent of 1936. In
March it recovered to 35 per cent,
but this level still is about one-fifth
below the peak of November, 1946.

In spite of the low level of pro-
duction, there is little unemploy-
ment in the American zone was

GLEANED BY SCRIBES

Mr. and Mrs. Tighman A. Benner,
of Pleasant Valley, celebrated their
60th wedding anniversary at a fam-
ily dinner, Sunday.

They were married in Phillips-
burg, N. J., by the late Rev. H. R.
Townsend, and have resided in
Pleasant Valley most of their mar-
ried life.

Open house was held during the
afternoon for their children, 24
grandchildren and 16 great-grand-
children. The grandchildren pre-
sented Mr. and Mrs. Benner with 60
American Beauty roses and the
great-grandchildren presented a
basket of flowers.

Having returned from a stay of
three months with relatives in Hol-
land, to which place she was ac-
companied by her sister, Mrs. Cor-
nelius VanBevern, Clinton, N. J.,
Mrs. David Arnoldi, of Morrisville,
came back with the announcement
that Holland is quite thankful to
the people of the United States for
the help that has been given.

Mrs. Arnoldi found the country
she left when 13 years of age had
changed greatly during the past 40
years. Still suffering severely from
the effects of World War II, the
spirit of the country, she said, is
typified in the popular picture of
the Dutch flag on a bent pole with
the slogan, "Bent, but not broken."

According to Mrs. Arnoldi, every-
thing with the exception of vege-
tables, fruits, fish, and potatoes are
still rationed. "If it were not for
the Americans," said Mrs. Arnoldi,
"the people would have practically
no clothing."

Although not surprised to hear
America praised as Holland's bene-
factor, Mrs. Arnoldi was somewhat
surprised at the lack of bitterness

A SUMMARY OF THE NEWS

Testimony of former RFC Direc-
tor Jones before a Senate Investi-
gating Committee yesterday dis-
closed that President Roosevelt
halted cancellation of a contract to
Howard Hughes for 200-ton cargo
air transports. The President said
that experience gained through fin-
ishing one plane would be too val-
uable to justify throwing away money
already spent.

At the other end of Pennsylvania
Avenue, President Truman signed
five money bills appropriating \$15-
978,241,583 and 52 other measures
passed in the final days of Congress.
He vetoed two bills.

Senator Bricker formally with-
drew in favor of Senator Taft as
Ohio's "favorite son" candidate for
the Republican Presidential nomi-
nation.

Life imprisonment and a fine of
\$10,000 were imposed on Douglas
Chandler, convicted of treason for
having broadcast for the Nazis from
Berlin during the war.

Australia and India, in separate
actions, asked the United Nations
Security Council to halt the fighting

fore Justice of the Peace Neal Nolan

LAW-BUSTING CAMPAIGN

The Special Congressional Election to be held in Bucks and
Lehigh Counties on September 9 has been turned, deliberately
and brazenly, into a law-busting campaign.

Not only is the electioneering being done in the name of the
Democratic Party in the two counties in flagrant and boasted
violation of the Federal Laws aimed at preventing such corrupt
practices in connection with the ballot; but the campaign of the
Congressional candidate running on the Democratic ticket has
been turned into a drive to defy and smash the recently-passed
Taft-Hartley Labor Law.

No words can add anything to the statements of the leaders
of this drive concerning the illegality of their methods, the
reasons which have led them to make this Congressional District
the battleground for their fight, and their wholesale defiance of
the National Government and the United States Constitution.

Every qualified voter in the Bucks and Lehigh Congressional
District ought to make it his business to get a copy of the union
publication known as "The United Automobile Worker", July
issue, and read for himself page 2 of the issue, headed "Presi-
dent's Column."

This is the most amazing political document which ever key-
noted a political campaign.

It represents the orders from Walter P. Reuther, the UAW
president, who is also a big boss in the CIO and one of the brain-
trusts of the PAC. His orders are to all local chapters of his
union, and to all the membership. By implication, the orders
are to all other CIO union members.

If anyone thinks these are not orders, but merely suggestions,
let him note the number of times the words "must" and "imper-
ative" appear in black type on the page. There are two "im-
peratives" and six "musts." That's the language of orders—not
mere suggestions.

Here are some of the comments of Mr. Reuther, under his
by-line, as officially set forth in a publication he controls as com-
pletely as if it were a personal letter written by him:

"Under the terms of the law (Taft-Hartley Act) it is
illegal for a union publication to advocate or oppose the
election of a candidate for Federal office."

"I am informed that any union official who violates the
provisions of the Taft-Hartley Act dealing with political
expenditures may be punished by both fine and imprison-
ment."

Shelly. During election, Elmer S.

Four marriages, seven births and
two deaths were listed for the past
year.

Seventy-four members and two
guests attended the Ely family re-
union held on Saturday at the home
of Robert T. and Frances W. Ely,
near Washington Crossing.

Croquet and baseball claimed the
attention of the younger members
after a picnic lunch, served from
tables set up on the lawn.

During the business meeting in
charge of the president, Robert T.
Ely, attention was called to a thriv-
ing young locust tree growing on
the edge of the lawn. This had been
planted 24 years ago at a previous
reunion, and now is about fifty feet
tall.

Bucks Population Shows Big Increase in Six Years

Bucks County's population increased 11,563 between 1940 and 1946 and brought the total number of residents to 119,268. It was estimated today by the State Planning Board, at Harrisburg.

Tallies taken on a county basis placed the state-wide population at 10,238,012, a 3.4 per cent gain over the 9,900,180 figure reported during the Federal census of April 1, 1940.

toward the Germans, but according to Mrs. Arnoldi, who heard many first hand stories, the hatred of the Nazis is intense.

During a meeting of Chalfont Grange Monday evening, the members decided to give financial assistance to the Chalfont Girl Scouts and to a men's community chorus here.

Featuring the business session in charge of the master, Raymond S. Detweiler, was the appointment of committees to function at the Grange picnic to be held on the grounds surrounding the Grange on Aug. 11.

During the evening, the charter was draped in memory of Harry S. Abbott, who died recently. The master appointed Mrs. Norman Lapp to take the place of Mrs. Chester C. Martin on the home economics committee during the illness of Mrs.

Martin. Mrs. Lapp announced she has arranged to have the Pomona contest dresses judged next week.

The literary program was in charge of the lecturer, Mrs. Andrew Jackson.

The discussion was followed by readings on farm safety by John Emig, Merrill Fellman and Mrs. George Moll.

Mr. and Mrs. John Emig were welcomed as new members. They transferred their membership from Plumsteadville Grange.

Inside Your Congress

Ballyhoo

—by—
SAMUEL B. PETTENGILL
"The Gentleman from Indiana"

In his recent economic report, President Truman says that Americans are richer than ever before in peacetime history; that we must adjust our minds to the fact that "we are living in a \$225,000,000,000 economy." Also, that we can place our production and employment on a "firm foundation of enduring prosperity and peace."

This sounds like the new "permanent plateau" of prosperity we were told about in the 1920's. Presidential utterances, such as the "Atlantic Charter," etc., always contain ballyhoo. Probably we will never see the end of this until we adopt the "no third-term" amendment, and have a President who is serving his second — and last — term in office. Probably not then.

The report frankly recognizes that there are some discounts to this optimism. But to balance off the bitter and the sweet, one should read an article by L. C. Walker, in "American Affairs," a magazine without soothing syrup, published by the National Industrial Conference Board. This article raises the question whether we are in fact as well off as we were in 1929 before the big crash. In 1929, "you could buy anything you wanted." You can't do that today — whether it is a house, an automobile, steel, etc. Only the other day, General Motors

laid men off because of a shortage of steel.

It is a statistical mirage to measure dollar income today against dollar income in 1929. This is like measuring anything with a rubber yardstick. In 1929, you bought a house dress for \$1.98; today, it costs you \$5.55, up 200 per cent. A wash cloth which cost 10 cents in 1929 sells for 19 cents today, up 90%. An automobile which sold for \$900 in 1929 today costs \$1,600 — if you can get it.

So, when Mr. Truman tells us to adjust our minds to a \$225,000,000,000 economy, he should also tell us to adjust our minds to the fact that these dollars have been rapidly losing value — due, chiefly, to the policies of the same government that brags about them.

While more men are employed today than ever before, the real question is whether they are producing more goods per man than in 1929. If not, the soothing syrup will turn sour. For you can't eat dollars. Midas starved when everything he touched turned to gold.

It is a serious question whether our gains in technology since 1929 have not been cancelled off by lower output per man. An automobile manufacturer reports that it now takes 120 man hours to produce a car as against 84 man hours before the war.

As off-sets to Mr. Truman's "unprecedented prosperity," consider the following:

1. We are exporting \$12,000,000,000 more goods than we are importing. Will we ever receive anything for this petroleum, coal, copper, etc., that is leaving America forever? If

not, our exports are making us poor, and not rich.

2. The tax "take" of the federal government, per person, is \$40 per cent greater than in 1929.

3. As dollars lose value, all holders of life insurance, pensions, social security, and government bonds pay an invisible tax that runs into the billions, through the loss of their savings.

4. We have 2,000,000 in the armed forces not producing goods, but consuming them, as against 300,000 in 1929.

5. In the other government departments, we have over 2,000,000 as against 550,000 in 1929.

6. Hours of productive work are going down to 40 or 35 hours per week. Longer vacations. More holidays. More pay for less work. In the last six years, wages per unit of goods have gone up 73 per cent, but the goods produced per man hour have gone down!

7. A national debt of \$258,000,000,000 as against \$17,000,000,000 in 1929.

Mr. Walker, in his article, concludes that it is "done with mirages"; that we are not in fact producing per person, and keeping in America real wealth (not dollars) to equal the standard of living we had in 1929.

PROCLAMATION

WHEREAS, the President of the United States has proclaimed August 1 as Air Force Day to honor the millions of men and women, living and dead, whose contributions to the growth of American air power made the Army Air Forces this country's most far-reaching weapon of defense; and

WHEREAS, the Army Air Forces is receiving an increasingly important role in maintaining, through constant research and development of aircraft and adequate trained personnel, the defense of this nation; in supporting the United Nations with adequate and effective air contingents; in avoiding the cost of war by insuring peace; and in providing, in the event of war, a nucleus of highly trained personnel, the basis for all-out expansion of war; and

WHEREAS, a grateful nation recognizes the importance of air power in preserving our liberties and appreciates the potentialities of air power in pioneering an even more glorious future for our country;

Now, therefore, I, Burgess of the Borough of Bristol in order that we may honor the men and women of the Army Air Forces who have given their lives in the defense of this

country, and recognize the service of those who in the armed forces or in the civilian centers of science, research and production have contributed to the building of our air might, do hereby proclaim Friday, August 1, 1947, as Air Force Day in Bristol.

I urge all citizens to join in the observance of this, the 40th birthday of the Army Air Forces, with ceremonies appropriately expressing their gratitude for its glorious past and their hopes for its future continued growth and development.

In witness, thereof, I hereunto set my hand and cause the seal of

the Borough of Bristol to be affixed. Done this 28th day of July, in the year of our Lord one thousand nine hundred and forty-seven, and of the independence of the United States of America the one hundred and seventy-second.

JACOB C. SCHMIDT,
Burgess.

Faith Clarke's SHOPPING TIPS FOR BUDGETEERS

HANDY COMBINATIONS of brightly colored metal trays with little black iron stands are selling in the Snellenburg Garden Department, for the small sum of \$1.98. These combinations can be used for so many purposes—holding potted plants, as porch beverage tables, bed tables, for lamps, children's play tables, etc. Speaking of plants, look over the array of plant foods in this Garden Department, too. A little of such food goes such a long way to increase the size and beauty of blooms. (1st fl.)

CANDIES to melt in your mouths, home, week-end and vacation varieties are now being featured in the satisfying Market Street and Chestnut Street Candy Sections of Snellenburgs. Think of cocoanut "snow-caps" partially dipped in rich, dark chocolate, priced at 69c a pound! The Snellenburg hard candies are famous, too, and are especially nice for the children. They come in a mixture of solid and filled flavors, or separately, at 59c a pound. There is another excellent variety at only 49c a pound. I know one family that keeps a five-pound supply of Snellenburg hard candies summer and winter. (1st fl.)

RUG MAKING is a most satisfying hobby. Even the men are taking rug-making lessons in the Snellenburg Art Needlework Dept. Often it takes but one lesson. There are several kinds to make, but just now the candlewick patterns are unusually popular. The substantial, stamped cotton candlewick tufts cost but 75c each. The cotton for making the candlewick tufts comes at 30c for each 100-yd. hank. The patterns measure about 24 x 36 ins., and the total cost, when finished, is usually under \$10. But, oh, the pride that is taken in the finished product! I've known whole families to make a hobby of creating handmade rugs. The rugs are much appreciated as gifts. Candlewicks can be used for the bedside, bathroom, or for informal living rooms. Oh, yes, the fast colors launder well. (2nd fl.)

HEAR, HEAR!—\$7.85 and \$9.85 16-rib umbrellas are now selling at Snellenburgs for only \$4.85! Moreover, these 16-ribbers are made of finest rayon celanese, guaranteed to be rain-proof. They come in all the fashionable colors, and have many kinds of smart novelty handles. Why not buy an extra one or two for future gifting? (1st floor.)

P.S. Do send clippings with mail orders when you can! Phone free (5c, 10c, and 15c out-of-town calls only). Penna.—ENT. 10160; Jersey—WX-1150. Shop located Market, 11th to 12th Sts., Phila.—through to 1125-29 Chestnut St. Be hearin' from you!

Faithfully, FAITH.

JUNIOR HIBERNIANS CAPTURE FIRST GAME

The Junior Hibernians won the first game of the three-game series with the Bristol Terrace team last evening on the Terrace field. Final score was: Hibernians, 3; Terrace, 1. The Youth League fracas attracted a large crowd.

"Petie" Rubino and Dick Harmon were the opposing moundsmen with Rubino giving the Terrace lads but two scattered hits. Three errors in the third inning gave Terrace its only marker. Rubino struck out nine batters. Harmon had six strikeouts.

After being blanked for three innings, the Junior Hibs scored a run to tie the score in the fourth. A walk, fielder's choice, and triple by Gross accounted for the tally. The winning runs were scored in the fifth. McDevitt singled but died trying to steal. Rubino tripled, Sackville singled and Neill also hit safely.

THREE MORE CLUBS TO BRING BOXERS HERE

Three more boxing clubs from Philadelphia have signified their intention of bringing their boxing teams to the St. Ann's A. A. arena, tomorrow night. This brings to five, the number of teams that will be represented in the amateur bouts.

The new teams are Eastside A. C., Amunization Club, and Crispus Attucks. Eastside and Crispus Attucks battled for the Middle Atlantic A. A. U. crown last season and both clubs have some of the best amateurs in Philadelphia.

Promoter "Sammy" Maffo will match the boys from these clubs with those from the John J. O'Malley Club and the Twentieth Century club and intends to hold eight or ten bouts.

thoroughfare during heavy traffic, they evidently being enroute to Silver Lake.

Parents have had their minds freed this summer from the menace of drownings at Silver Lake, since Bristol Blood Donors, through aid of residents, have provided life-guard service. But, unless the children heed the counsel of their elders, use other less-travelled routes for their cycling, or are more cautious in crossing the highway and make certain to use intersections, the death-toll may far surpass what it ever was at Silver Lake.

Less than an hour after the by-pass opened one motorist was seen attempting to "sneak through" a "stop" sign without halting at Beaver Road and the highway, thus inviting disaster.

And the need for careful driving and extreme caution is seen at the intersection of old route 13 with the by-pass in the vicinity of Bristol Cemetery.

The new highway was the center of interest about town, last night. Many motorists made a tour of the route and were surprised to find the changed appearance of the area.

It is found that the Hunter-Wilson plant is not nearly as readily identified as it is from the P. R. R. A new

sign will have to be painted so that the plant can be identified from the highway side.

The church and the school at Edgely are right-out-in-front.

The L. D. Davis Company plant also has a front location.

The Paterson Parchment Paper plant is easily seen.

What has been the rear of Bristol Terrace Project No. 1 now becomes the front, facing the highway. Residents sit at their windows and watch the traffic. One woman, last night, took full advantage of the situation. She kept cool, watched the traffic and at the same time finished her ironing. She ran an extension cord out of the window, set-up her ironing board on the lawn and ironed until dark.

Occupants of the houses along First, Second and Third avenues also took advantage of their location to watch the cars roll by.

Residents along old Route 13 in Edgely and nearby, also along Pond street here, state they had a quieter night, many who are easily bothered by traffic sound enjoying a sound sleep.

LUCKY LADY. Electricity now performs more than twice the household chores it formerly did, and performs them better. All of which means easier living, more leisure.

But the really important thing is how little you pay for electricity. It's about the only thing entering into everyday living that hasn't gone sky-high during these days of soaring prices. On the contrary, the price of electricity has been cut nearly in half during the past fifteen years.

Naturally, with the use more than doubled, even half price doesn't mean a lower bill... but it does mean a lot more for your money every time you snap an electric switch.
